REMARKS

The figures of births and deaths shown in this statement for week ending the 25th June, 1955, relate to 180 towns with an estimated population of 25,016 thousands. The total number of towns is 300 and their population is 38,988 thousands. Thus 60% of the total number of towns representing 64% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 14,947 and 7,095 representing birth and death rates of 31·0 and 14·7 per thousand of population respectively.

(A) States (Part A and C).—The data here relate to 157 towns with an estimated population of 21,715 thousands. Information about Ajmer, Bihar, Madhya Pradesh and West Bengal could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 62% of the total number of towns representing 67% of the total po-

pulation is covered. The number of births and deaths recorded in these towns were 13,423 and 6,360 representing birth rates and death rates of 32·1 and 15·2 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 23 towns with an estimated population of 3,301 thousands. The total number of towns is 48 and their population is 6,416 thousands. Thus 48% of the total number of towns representing 51% of the total population is covered. The number of births and deaths recorded in these towns were 1,524 and 735 representing birth and death rates of 24·0 and 11·6 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
